Project-4

Due Date: 29/04/2022 23:59

File Management

Write a Java program which

- reads the **a folder name** from keyboard
- list the **all file names** and **their sizes** in this folder (by containing the subfolders and writing the size of the subfolder)
- **Rename** the file names with their **UPPERCASE** names. (During this process change all Turkish characters to the English Correspondence)

ç	to	c
ı	to	I (Be carefull about i to I (Uppercase))
ğ	to	g
ü	to	u
ö	to	o
ş	to	s
